82-12651/1

25 October 1982

MEMORANDUM FOR: National Intelligence Officer for General Purpose Forces
FROM: Director of Central Intelligence
SUBJECT: Independent Study of Intelligence at NATO Headquarters

1. I found this NATO study very enlightening. I would like to have it supplemented by understanding the channels and the extent of intelligence support which are now operating from the Pentagon and also need to know something about the various headquarters and staffs which are mentioned in this study -- CORE, SHAPE, NATO HQ, Intelligence Military Staff, Military Committee, North Atlantic Council, ACE Committee.

2. It will be helpful to see the following NATO documents mentioned in this study:

- a. MC 166/4, dtd 14 March 1980, reflecting I&W indicator.
- b. Special set of indicators developed at SHAPE for the Polish problem.
- c. MC 14/3 -- intelligence on I&W directive.
- d. MC 255 -- Significance to NATO of Soviet Policy and Activities in Middle East.
